ABOUT ME

Hello my name is Balša Dogandžić,

I am currently a student at the University of Donja Gorica, faculty of informational systems and technologies. Before I was a student I studied pharmacy in medical high school in Podgorica, Montenegro, so I am a high school graduate.

I was primary interested in web technologies, but now I have also taken interest in other areas of software development. The programming languages I have experience and am good with are: Java, JavaScript, Python, SQL. I also have experience with Django and Django REST framework. You can also check my certifications and skills section if you want to see more.

You can see my projects on GitHub: <https://github.com/Balsa-Dogandzic>

I don't work at the moment, and I don't have experience in my field of study. So I am looking for an internship job to gain more experience and knowledge

EDUCATION AND TRAINING

01/09/2016 – 21/06/2020 – Podgorica, Montenegro
